***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate or render obvious a method of manufacturing a ferroelectric random access memory (FeRAM) capacitor substantially as claimed. Specifically, the prior art of record fails to anticipate, teach or suggest - either separately or in combination - a method for manufacturing an FeRAM capacitor, wherein the method comprises the steps of: forming a third ILD on exposed surfaces of a first bottom electrode and a second ILD; planarizing the third ILD until a top face and upper sidewalls of the first bottom electrode are exposed; forming a second bottom electrode on the top face of the first bottom electrode, the first bottom electrode and second bottom electrode together being a composite bottom electrode; and forming conductive oxides on exposed sidewalls of the first bottom electrode by carrying out an oxidation process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Toniae M. Thomas whose telephone number is (571) 272-1846. The examiner can normally be reached on Monday-Thursday from 8:30 a.m. to 5:30 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amir Zarabian can be reached on (571) 272-1852. The
